DETAILED ACTION

Allowable Subject Matter

Claims 1-2 and 4-5 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art known to the Examiner is listed on the PTO 892 and IDS forms of record. None of the references anticipate or make obvious, *inter alia* , "sintering an aqueous manganese nitrate solution containing a total of 0.5 – 2.0 wt. % of graphite powder" as required by present Claim 1, and its dependent Claim. Moreover, none of the references anticipate or make obvious, *inter alia* , "applying a graphite solution that contains 5-10 wt % of manganese dioxide powder relative to the solution and drying the applied solution", as required by present Claim 2 and its dependent Claim. Therefore, the present Claims are allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
